

# POWER UP for Teams

A virtual, one-day workshop to fire up your team and rekindle their spark.

## Why POWER UP?

Even the best performing teams lose their energy sometimes. Especially now, in a challenging, online world, showing up at your best, staying connected and maintaining momentum... all that can be hard. And that's a problem when you need to bring results.

As remote working and zoom fatigue continue to be our new norms, is it time to ignite and power up your team?

## A virtual team day with ignition!

POWER UP for Teams will rekindle and regenerate the spirit, passion and impact of your team.

This inspiring, online session will help them re-connect with their collective power, renew their commitment, and leave the session feeling invigorated, focused and ready to take their next steps.

*“The whole training was amazing! ...It was what we needed as a team after the last year of disconnection-connecting again :). The material was rich and super relevant. A lovely day :)”*

## What you'll get
